A TERRIBLE COUGH.

"94 Commercial Road, Peckham, July 12th

"Dear Sir,—I am a poor hand at expressing my feelings, but I should like to thank you. Your lozenges have done wonders in relieving my terrible cough. Since I had the operation of 'Tracheotomy' (the same as the late Emperor of Germany, and unlike him, thank God, I am still alive) performed at St. Bartholomew's Hospital, no one could possibly have had a more violent cough; it was so bad at times that it quite exhausted me. The mucus, which was very copious and hard, has been softened, and I have been able to get rid of it without difficulty.—I am, sir, yours truly, J. HILL."

I often suffer from Chronic Bronchitis; your Lozenge is the only remedy which gives me immediate ease. Montevideo, 17th.

A long official bulletin was issued to-night. All the first part is "fiambre" in Buenos Aires. I do not translate the part describing rout of Lamas by Government forces near Cerro Colorado; but may add that this news has been confirmed by later telegrams received at Ministry of War. Will send more complete news by letter. It is too late to have telegrams in English approved at Prefecture.

Florida, April 17th 10,30 a.m.

The forces of Muñoz yesterday attacked the rebels and twice forced them, by means of the field artillery, to abandon their entrenched positions. The enemy eventually retreated, many of them deserting by the way. The only officer killed was Lieutenant Barbozo.

To-day at 2 p.m. the Florida Chief of Police, speaking through the telephone, informed the President that the forces of Lamas and Saravia had been routed by General Muñoz. A telegram from Muñoz to the Minister of War confirms the triumph of Muñoz and asks for assistance for the wounded.

Yaguaron, 17th April, 1.15 p.m.

To His Excellency the President.

Muniz, Martirena and others are concentrated in Artigas.

I heard that the rebel leaders met to-day to consider whether they should resist General Arribio who is reported to be in Corralon de Piedra.

The Blancos are short of ammunition; supplies are expected from Velasquez and Terra via Rio Grande.

The revolutionist General Nuñez has quarrelled with Taseyra the delegate of Terra.

Cannes, 17th—The Grand Duke of Meoklemburg's funeral took place here yesterday.

Canea, 17th—Telegrams received from Hierapetra announce that water is very scarce in that district while typhus has broken out carrying off many people.

Athens. 17th—The Premier Delyannis this afternoon presented in the Chamber several projects for a loan. The Chamber will probably authorize Governmeat to raise a loan of from 200 to 250 million in France.

Madrid, 17th—The Queen Regent yesterday pardoned 14 convicts and all those in prison for petty crimes.

Canea, 17th—The Austrian marines garrisoned in Malaxa have encountered rebels in Nerokown, near Malaxa. The result of the fight is not yet known.

Corfú, 17th—Another twenty Italian volunteers passed through this city last night on their way to Greece, where they will join the group commanded by Amilcare Cipriani. The Italian volunteers met with a most enthusiastic reception.

Marseilles, 17th—The Aquitaine will take on board at Barcelona the passengers for Buenos Ayres by the steamer Provence which met with an accident by running on the rocks a few days ago.

Vienna, 17th—Telegrams from Servia announce that three Turkish Army Divisions are being concentrated on the Servian frontier. This has caused some excitement in Belgrade and it is probable that King Alexander will send a protest to the Sublime Porte.

Constantinople, 17th--Government newspapers state that the bands of Greek rebels have disappeared from Macedonia and crossed the frontier again.

Nimes, 17th—The strike of miners is spreading rapidly.

Paris, 17th—It is asserted that telegrams have been received from Constantinople announcing that the Sublime Porte is being incited by Germany to declare war against Greece.

Athens, 17th—Telegrams received from Larissa announce that a rumour prevails reporting a fight between Greek and Turkish troops near Netzero. The news has not been officially confirmed.

Madrid, 17th—In official circles it is said that 40,000 troops of all arms will shortly be withdrawn from Cuba; and this is considered a proof that the revolution there is at its last gasp.

Vienna, 17th—It is announced from Larissa that the famous Macedonian patriot leader Bruffas, left Volo this morning with 2,000 men for Macedonia, to land at Chalutigue, on the east coast of that Turkish province, where he will be joined by several bands of insurgents.

Paris, 17th—The latest telegrams from Larissa confirm the news of fighting between the Turkish and Grecian troops on the frontier of Thessaly. The former were the aggressors and tried to surprise a Greek post, but after a fight of four hours, the Greeks repulsed them, and drove them back across the frontier in complete rout. The latest accounts say that the Turks have retreated.

Nice, 17th—Baron Latinavico, a former Hungarian Deputy, blew his brains out at Monte Carlo to-day, having lost all his fortune at the roulette table.

Rome, 17th—Admiral Canevaro, Commander in Chief of the allied squadrons, left Canea to-day for Hierapteа on the S. E. coast of Crete, to suppress the fighting there between Turks and Christians.

Paris, 17th—The Radicals and Socialists are delighted and the Clericals are correspondingly indignant at the action of the Government in prosecuting Bishop Belmont for having incited those in his diocese to refuse to pay the taxes recently imposed by Parliament.

Athens, 17th—Premier Delyannis declared this afternoon in the Chamber that hard-fought skirmishes had taken place near Nezero between Greek and Turkish troops, but that the latter had been the aggressors.

He added that the Greek army had invaded Macedonia at seven different points and that the several columns had been permitted by the Turks to take up positions in order to prove to the Powers that the Greeks were the first to begin the struggle—which was by no means the case.

M. Delyanni's finally said that Greece was firmly resolved, at every sacrifice, to make herself respected and to defend her territory.

Frankfort, 17th—The *Frankfort Gazette* asserts that England is endeavouring to obtain from Turkey permission to occupy Crete to prevent that island falling into the hands of Greece; and urges the Powers to frustrate Lord Salisbury's attempt to disturb the peace of Europe.

THIS MORNING'S TELEGRAMS.

(Received after Midnight.)

Paris, 17th—In official circles no great importance is attached to the Nezero skirmishes. It is maintained that European diplomacy, would immediately restore peace even were war to be declared between Greece and Turkey.

Rome, 17th—Two more line battalions and a battery of artillery are at once to be sent to Crete.

London, 17th—The battle between the Turkish and Greek forces near Nezero, continues. The Turks have received reinforcements and will probably assume the offensive. The guns can be heard in Larissa.

Salonica, 17th—In obedience to orders received from Constantinople, large bodies of troops left this afternoon for the Gulf of Rendina to prevent the landing of 2000 insurgents expected from Volo.

Several torpedo-boats have also left to watch the Macedonian coast.

Athens, 17th—From Larrissa it is reported that fighting took place from Analipsis to Kleptica. The Greeks lost 40 wounded and 4 killed—one of them an officer. The Greek Cabinet will lay before the Powers a protest against the aggression of Turkey.

The invasion of the Sultan's army under Edhem Pacha appears to be most probable.

Constantinople, 17th, (midnight)—In consequence of the news received to-day the Sultan's Government has decided to recall Assuntoy Pacha, the Turkish Minister in Athens, to hand the Greek Minister here his passports, and to order Edhem Pachá to assume the offensive.

THE VICTORIA MEMORIAL.

The British residents of Buenos Ayres are invited to meet next Wednesday in the Prince George's Hall to discuss the propriety of commemorating in our midst in some prominent and beneficial manner, the completion of the 60th year of reign of Her Gracious Majesty Queen Victoria, and what shape such a commemoration should assume. H. M.'s Minister Plenipotentiary and Envoy Extraordinary near the Argentine Government will be present, and we hope that all the representative members of the British community will attend, as there can be no question as to the plausibility of erecting a Victoria Memorial; and it is of paramount importance that the wishes of the community be clearly determined as to what shape shall be given to that memorial. We think, therefore, that there is a moral obligation to attend the meeting, since the decision thereat involves the solidarity of the whole community.

It stands to reason that any decision adopted at the meeting must be of a thoroughly national character, and be perfectly free from all limitations as to race religious creed, or nationalities under British Sway. Whatever memorial is adopted, it must have such a scope that it can excite no opposition on the strength of social, religious, or political distinctions. If we lay some stress upon this point—which may appear to many quite unnecessary, given the nature of the commemoration—it is because some representative members of the community have been sounding the public as to the expediency of erecting a Victoria School as a fitting Memorial of the most remarkable reign in British history. Apart from the fact that a School may excite sectarian opposition, it cannot meet wants that are commensurable with such an event as the commemoration of Queen Victoria's 60 years' reign; and if this argument be not sufficient, we need only add that it cannot be supposed for a moment that the British Community care to erect a Memorial that might in any way hurt the interests of any Britishers in our midst. A Victoria School, let us confess it, would take the bread from our British school-masters.

There can be no fitting memorial to Queen Victoria's reign unless it can appeal to the unanimous support of all, of rich and poor; of Catholic, Protestant, Buddhist, or Mahommedan; of Englishman, Welshman, Scotchman, Irishman, Australian, Canadian, Falkland Islander, or Indian; of classes and masses. In fact, the Memorial, to be worthy of the British community in the Plate, must be Imperialist. We think that these are the feelings that will animate the meeting that will take place next Wednesday under the auspices of the British Minister; and we think that these same feelings will guide Britishers in all parts of the world when discussing a fitting Memorial to the most beloved sovereign that ever swayed the fortunes of the British Empire.

Our views as to the best means of commemorating the Diamond Jubilee are well known. We have suggested a Sailors' Home within beck and call of the 6,000,000 tons of shipping that come and goe in the year in the Buenos Ayres Port. Nothing more appropriate to Britannia's Queen than a monumental home to the toilers of the sea over which she rules. Stranded on these shores, let the British tar—nay, every tar—see from the very deck of his ship a haven of refuge. A Memorial of this kind has the immense advantage of a wide sphere of great utility and of enlisting the support of all. It may happen that some better plan may be produced at Wednesday's meeting, but we think that it is in the conscience of all that no memorial of a sectarian character will satisfy the aspirations of the community.

THE URUGUAYAN REVOLUTION.

THE REBELS SEIZE A GUNBOAT.

SANGUINARY FIGHTING ON THE DECK.

USELESS SACRIFICE OF LIFE.

ASSAULT ON THE TRIDENTE.

SEIZURE OF A GUNBOAT.

The monotony into which things Uruguayan were rapidly falling has been unexpectedly relieved by a brilliant feat accomplished by a handful of determined men. On Thursday night a carrier-pigeon brought the news of the seizure of the gunboat Artigas, the mainstay of what is courteously styled the Uruguayan fleet. The vessel was lying at anchor in Nueva Palmira. On Thursday at midday the sentinel on deck saw a coal barge drifting towards the gunboat. Com. Risso and officers were at breakfast at the time. Slowly the barge approached. There appeared to be three men on board, and they were covered with coal dust. As soon as the barge came alongside, one of the men pulled off his cap and asked Commander Risso to kindly excuse what might appear to be his awkwardness, but the tide was so strong, etc., etc. At the same time the other two men made the barge fast to the side of the gunboat.

We may here say that on board the Artigas orders had been given to keep a vigilant eye on all vessels entering the port, as the Commander had been warned that an attempt would be made to seize the gunboat.

Suddenly a shout was heard, and from the hold of the barge there emerged some thirty men armed with revolvers and cutlasses. With extraordinary agility they climbed up the side of the vessel, jumped on the deck, and then a terrible scuffle ensued. Commander Risso, unarmed, was the first to give the alarm. He rushed toward a sailor, seized a cutlass and joined in the fray. His voice, soaring above the uproar, urged his officers and men to resist. "Traitors" shouted Risso, when he recognised two former middies (who deserted a few days ago), who led the assailants. The two deserters were determined to kill Risso. The latter, wounded, managed to bury his cutlass in the body of one of the turn-coats. At that moment he received a bullet in the face. The other midshipman now rushed upon him to finish him, but Risso, with tremendous energy, succeeded in stabbing him to death. This was a terrible episode. Risso fell with 12 ghastly wounds. Other officers also fell, amongst others Lt. Gradin. who was killed almost at the outset. Capt. Tajes, second commander, was taken prisoner. Lt. Belveder was wounded. In fact those officers who were not killed during the fight, were picked up wounded on the deck.

The vessel seized, the Rebels ordered the engineer to set the engines going, and then they looked after the wounded. Commander Risso, in a dying condition, was lowered in a boat and sent to the Palmira Red Cross Society. One of his sailors was allowed to accompany him, and it is from the sailor that the foregoing particulars have been obtained. There is, however, another version, and it would appear that the Artigas began firing on the barge when the latter came within fifty yards. Notwithstanding this, the barge continued to approach and the assailants, headed by ex-midshipman Suarez, jumped on board. Suarez was wounded at the very outset, but. in spite of the loss of blood, continued to encourage and direct his men until he fell down dead on the deck.

The Artigas yesterday steamed into Zarate and was at once seized by the Argentine authorities. In other words, the brilliant capture of the vessel by the Rebels amounts to nothing, and a score of lives have been sacrificed in vain. However much we may admire the courage of both Blancos and Colorados, we cannot excuse the useless sacrifice of human life, and it is to be observed that so far the salient feature of the Revolution is precisely a reckless sacrifice of life. We have seen, at the battle of of Tres Arboles, the gallant Cazadorers almost exterminated through the careless courage of Col. Flores. The modern principle of warfare is to obtain victory at the least possible expense of human life.

A telegram received last night from Zarate gives the following particulars of the double capture.

Among the 20 revolutionists who possessed themselves of the "General Artigas" are five young Germans. When their two leaders had fallen the command of the party devolved on Claudio Acuña—a man perfectly ignorant of naval matters. The Artigas was brought to Zarate by the pilot alone as Acuña neither knew whither the vessel was being navigated nor that there was an arsenal here.

When the revolutionists had jumped on board they immediately sought the armory killing 3 men and dangerously wounding the Commander who was sleeping on deck with a Winchester for pillow. Tajes, the second in command, was warned in time and escaped unhurt.

Acuña did not land all the wounded because the approach of a boat frightened him and he at once weighed anchor.

Permission was given to many of the crew to jump overboard and only 15 remained as prisoners on boar d.

The revolutionists disembarked on Bo tijas island 1000 Mausers and Remingtons and 3000 dollars which they had found on board the prize.

The Blancos, 11 in number, have been lodged in the Arsenal. Tajes has been informed that he is free to go where he pleases. His men, as well as the revolutionists in the Arsenal, will, I am told, go to Buenos Aires by train to-night.

As regards Lamas and Aparicio, they are now marching in subdivided columns, and have thus completely upset the calculations of the Government Generals. There can be no doubt that Lamas is a very clever tactician. He seems to know every inch of the country.

The Rebel Committee yesterday received advices reporting an engagement which lasted several hours, and which ended in the defeat of Col. Alcoba and his men by the ubiquitous Lamas.

The river-steamer Tridente, on its arrival at Paysandú on Friday last, was assaulted by a band of 40 soldiers under Com. Vasquez. There can be no justification for this arbitrary act, and the only explanation would appear to be the political color of the captain, who is a Blanco. The assailants searched high and low for armament, but of course found nothing. The passengers were compelled to shew their passports. These high-handed proceeding can be productive of no good, and it is difficult to see how they can improve Mr. Borda's reputation.

The news received from Stand by O'Gorman early this morning, gives a very dismal account of the revolutionist cause, but we already have too much experience in Government bulletins to be able to place much trust in the news given in our special's interesting telegram.

SOME DETAILS OF THE SANTA FE.

To the Editors of the STANDARD,

Dear Sirs,

I have been under the bottom of this craft as she now lies on the slipway at the ex-Platense works. It is very patent that she went on to the rocks at a very high speed, as her bottom for two-thirds of her length is ripped, the plates are broken between each floor or frame; her bow for some twenty or thirty feet, with the torpedo tube in it, is broken off the rest of her hull, right up and down a bulkhead; this could not be done by the force of the waves, but is evidently done by the injudicious application of the force of some mechanical power, say the floating derrick or crane. If the ship could have groaned in her agony her cry would have been (the Lord deliver me from my friends). The intrinsic value of the hull of these vessels is really very little the expense lies in the powerful engines, boilers and armament; the plates of the hull are flimsy things of steel about the thickness of ordinary galvanized sheets of roofing iron with the exception of one belt of plating which is about two eighths of an inch thick; this is round the hull and forms the upper streak and helps to give the ship longitudinal strength, weight of material which would give strength must be sacrificed to get high speed. An interesting chapter might be written as to why she was got off and why she should be repaired.

Yours truly

Nauticus.

THE CHILI'S MAILS.

London, March 26th.

The Queen has sanctioned the appointment of Sunday, June 20th, as a day of national thanksgiving, and June 22nd as a Bank Holiday.

In the House of Lords last Thursday the Duke of Abercorn asked for an inquiry by Royal Commission into judicial reduction of Irish rents, and the Prime Minister, in reply, offered an inquiry by committee. On the following day Lord Salisbury criticized a speech on Cretan policy delivered by Lord Kimberley at Norwich, and defended the federation of Europe known as the Concert of the Powers.

In the House of Commons last Thursday Mr. Balfour, criticizing questions and speeches relating to the Cretan question, challenged the Opposition to move a vote of censure, and offered them any day they liked for the purpose. The Voluntary Schools Bill was then proceeded with, and passed through Committee without amendment. On Friday, after some reference to the Transvaal Indemnity claim, the Navy Estimates were discussed. A Bill for adding Southwark to the City of London was rejected on Monday by 187 to 169; after which the Cretan question was again brought up. Discussions followed on the Military Works Bill and the Scottish Public Health Bill. On Tuesday, after questions as to the Eastern Crisis and the treatment of Protestantism in Madagascar, a resolution was carried by 178 to 97 votes in favour of relieving the clergy from their excessive burden of local taxation. On Wednesday a Bill for establishing a Court of Criminal Appeal was read a second time by 129 to 85.

Lord Kimberley and Sir W. Harcourt spoke at Norwich again last week in connexion with the National Liberal Federation, and were replied to by Mr. Chaplin at Leicester on Wednesday. On the same day Mr. Macartney spoke at Newcastle and Mr. Labouchere in London. The Cretan question, which occupies a large part of those addresses, is the subject also of a pamphlet by Mr. Gladstone.

The evidence of Mr W. P. Schreiner has taken the whole of the last two sittings of the South African Inquiry Committee. —A volume has been published containing an appreciation of Mr. Rhodes, by "Imperialist" and Dr. Jameson.—Captain Byrne, who was wounded at Benin, died on Wednesday in London.

The Mansion House Fund for Indian Famine relief amounted on Wednesday to £455,000; and £100,000 has been sent to India from Lancashire.

Mr. Dillon in a letter to Welsh Radicals, defends the Irish Nationalist support of the Government's education policy.—Sir John Gorst spoke at Girton on Saturday on the needs of rural education.

Sir J. M'Kenna charges the Government with inconsistency in appointing a new Commission on the Irish taxation question, on the ground of the "alliance" into which Mr. Disraeli entered with him in 1866.

Reports and recommendations on the health of the Indian Army are published by a departamental committee and the Army Sanitary Commission. Lord Roberts has also expressed his opinion on the subject.—Lord Brassey writes from the antipodes urging measures to foster a naval reserve in the mercantile marine.

Lord Penrhyn met his quarrymen in conference last week, but they insisted on his recognition of their committee, and the dispute is as far as ever from a settlement. The North-Eastern engineers strike, on the other hand, has been brought to an end.

Dr. Nansen has finished his lecturing tour in England after receiving the honorary degree of D. C. L. from Oxford University.

Mr. Justice Charles has resigned his seat on the Bench.

Obituary list includes the name of Capt. G. T. Byrne, who was wounded in the Benin Punitive Expedition, Gen. Sir W. P. Radcliffe, Mr. John Roche, Q.C., Mr. J. B. Martin, President of the Royal Statistical Society, Dr. Robert Hogg, the horticulturist, Mgr. A. W. B. Petre, and Miss Emily Shirreff.

LATEST FROM CHUBUT.

The Villarino arrived in the Darsena late on Thursday evening, and as usual, crowded with passengers; in fact the companion way had to be rigged up with temporary berths for the Chubut contingent. After leaving Port Madryn it anchored in front of Admiral Solier's fishery establishment of Arwats, the Indian name for what is called (Cracker Bay, Punta Nintas, etc.) and there took in more than 100 boxes of the splendid dried fish from the recently started factory of the place, pollock, haddock, mullet, and cod. The passengers included officials and their families (and they were many) from along the whole coast, with Com. Iroa and his family from Arwats, and quite a number of sheep settlers from various points and of various nationalities. From Chubut there were Messrs. L. Jones, Burrell, M. and L. Humphreys, Morony, Slater, and Dechaira. Mr. Burrell brings up samples of the auriferous quartz of Teca, in which he is interested, and on which his men were at work. At the Rio Corintos Gold Mine the pumping and engine were in full swing and the shaft sunk by Mr. Roch was verifying his expectations. The expert, Mr. Williams, with whom was Mr. Gilderdale, had put on all available hands, but like all practical men kept his report and information for his directors; nevertheless it was oozing out in the surrounding neighborhoods that the find was very satisfactory, and that animation will be felt shortly in everything connected with the mine.

Mr. Miguel Mulhall has arrived with his brothers Don Francisco and Julio on his old "querencia" around Teca and Sunica; whilst their cousins were sending down their Quichaura wool, neatly baled to the tune of 9 or 10 tons. At Chubut itself the wheat season was in full swing, as many as 90 or 100 waggons unloading at Treleu daily. A pile of telegraph posts were at P. Madryn ready to be put down for the projected line, but denounced on all hands as utterly unsuited, being crooked, slight beech and birch poles only, not likely to stand two years in the alkali soil of the travesia and Chubut.

GAUL'S PASSION SERVICE.

On Good Friday evening the long series of Lenten Services which have been held at All Saints' Church, Quilmes, appropriately closed with a performance of Gaul's Passion Service.

The service, which is of almost Oratorio length, is in reality a musical drama in six scenes, descriptive of the last great events in the life of our Saviour, and with the exception of a hymn at the close of each scene, appropriate to the events which are introduced to relieve the length of the work, the libretto is entirely from Holy Writ, compiled by the Revd. J. S. Blissard, who is also the author of the hymns. How capably this gentleman has done his work can be known from a study of the libretto, which is appropriate, dignified and both poetical and strikingly dramatic.

The service, while containing passages of advanced composition, is of simple construction, written for performance by ordinary Church choirs, all other passion services, such as Bach's, Haydn's and others being possible only for large and experienced choirs.

Each scene, with the exception of the last, opens with a Choral refrain of the simplest character, "Holy lips of Prophecy," followed by an instrumental introduction intended to set forth the sentiment of the scene. Perhaps in these movements Mr. Gaul's composition is as conspicuous as in his Choral writing, for which he has become famous. The descriptive power of some of these is striking: mention may be made of "Indignity", "The Noise on Calvary", "The March of Roman Soldiers" and the singular feeling of "The Quiet of Early Dawn," before the Holy Sepulcre. Unfortunately, owing to the late hour at which the service commenced several of these were omitted, thus destroying the conformity and scheme of the work.

The important baritone Solos were taken by Mr. Robert Clark with considerable success. His manly, resonant voice rang with power, and his style was suitably dignified. Mrs. Lovett and Mr. Howson also took less important parts with ability, while Miss Clark, an exceedingly youthful vocalist, sang the Contralto music with unexpected power and depth of tone. With time and cultivation this young lady has a certain success before her.

The choir gave a good account of themselves, considering the few practices, and though lacking the attack and vigour necessary in the chorus "Crucify him, Crucify him" and rather at sea in the fugal chorus "The fining pot is for silver" were quite at home and revelled in the splendid final chorus "Why shouldst thou fear the beautiful Angel Death".

Mr. Savin played the accompaniments and instrumental movements with considerable taste and success.

This Passion Service has attained great popularity in England and, we hope to hear it repeated with an increased chorus which would vastly improve its production. It is original, dramatic in the extreme, and the composer has been singularly successful in writing up to the spirit of the libretto, making a service of power, appropriateness and of most graphic description.

The Church was crowded, but the absence of the Vicar in consequence of a severe attack of illness was greatly regretted. It is hoped that he may be able to take some small part at least in the Services of to-day, Easter Sunday.

The Lenten Services at Quilmes have been very numerous. During the past week they have numbered twenty eight; and although the attendance at the majority has not and cannot have been very large, the 8.30 evening services have been popular and wonderfully well attended, the average every evening having been about fifty. Each night has shown an increased attendance. The Vicar's devotion to his duties has been so intense that he has at last had to pay the penalty of his labours and has broken down. The evening addresses have been much appreciated, the Vicar's earnest homilies have been both strengthening and refreshing, and at times quite affecting, making one at times to feel that these simple, unpretending services are of much more value and strength than a Sunday Service, where elaboration of method, dress and feathers, not unfrequently detract from simplicity and earnestness.

TELEGRAPH DEPARTMENT.

The survey for the establishment of telegraphic communication between Rio Negro and Chubut and the building of lighthouses etc. along the line has already been finished and the task of putting up the posts and laying the foundations of the lighthouses will be commenced as soon as the necessary number of workmen required for the task are sent down. The Telegraph Line etc will be finished and ready for use next spring. The survey for the telegraph line from Chubut to Cabo Virgenes is also drawing to a close.

SIGNAL DEPARTMENT.

The surveys referring to this important branch are also being concluded.

MILITARY PORT.

The general project with reference to the works of fortification in the Port of Belgrano has been duly finished, and tenders for the construction of the Port, including electrical signals, light projectors, telegraph department and telemetry department etc.

The plan referring to the construction of the first set of batteries is likewise finished, and the work of constructing them has already commenced. The Portland cement and the necessary implements required for this most important work have already been asked for. The timber and iron required for the construction of wharves arrived at Port Belgrano a few days ago, while the timber for building sheds, etc., is already there.

The plans for the construction of the second group of batteries are already drawn up and ready to be put into practice.

The surveys for the railway lines from Bahia Blanca to the Arsenal and batteries on the North side of Port Belgrano have been duly finished.

The Southern Railway will begin to lay down the rails for the new line as soon as the contract referring to this line be approved by Congress.

The surveys for the construction of the Naval Arsenal, dry docks, darsena, sluices, naval yards, depots for armament, ammunition, provisions, barracks and hospital are far advanced. The surrounding land is admirably adapted for the construction of the port, and perforations have shewn that the soil is hard and able to resist heavy pressure.

Home materials will be used in the construction of most of the works, while the remaining part will be brought from Europe.

The following European Port Constructors have offered their services to the National Government: Creuzot, Walker, Pearson and Co. of London, Dirks and Dates.

THE LOCUST.

Mr Richard Huergo, the energetic Chief of the National Agricultural Department, has, after a series of observations and studies on the habits etc., of the obnoxious locust, come to the conclusion that the locusts come into the central and southern parts of the Republic from a fixed point located in the Chaco. The direction from which the locusts come is, according to Mr. Huergo, North and north west, and they fly South and south east in the Provinces of Santa Fé and Entre Rios while in the Central provinces the insects fly from North to South. This shews that the locusts come from some spot in the Chaco. It has been proved that the locusts that invaded Uruguay came from Entre Rios and in returning passed thorough Entre-Rios and Santa Fé always flying in a North-West direction. Meanwhile the locusts born in the Provinces of Buenos Aires and Cordoba go north through Rioja, Catamarca and Santiago del Estero. Mr. Huergo finally sums up his observations as follows. The general directions taken by locusts in their flight to the interior of the Republic and their return to the northern parts of the country are N.N.W. to S.S.E. and from S.S.E. to N.N.E. to N.N.O. respectively.

The invasion of the locusts in 1854 to 1876-1877-1888 confirm the existence of a permanent breeding ground in the Republic, and this ground lies towards the N. O. of the country, near the valleys at the foot of the Andes.

There is not the slightest doubt that the climate exercises its changes over the female locusts, and therefore a prolonged summer or early winter enables the plague to breed twice in the first case and disappear sooner in the second.

The first case occurred during the summer which is dying out, as the heat began to be felt before its time, and the locusts therefore laid their first eggs very early. The prolonged summer enabled the female locusts to breed again.

That a sub-permanent breeding ground exists there is not the slightest doubt, as Mr. Huergo says, and this ground must be in the Chaco. In order to prove this Mr. Huergo cites a case of locusts appearing in the "Cielo" camps on the frontier of Santiago del Estero during the months of June and July.

Mr. Huergo winds up his report on this important question by dwelling on the advisability of three commissions exploring the regions where the locusts are supposed to have their permanent and sub-permanent breeding grounds.

LA PLATA.

(From our own Corrsepondent.)

April. 17th.

The inauguration of the new University here will take place to-morrow at 2 p.m. Governor Udaonda will attend the ceremony, as also Dr. Dardo Rocha, who is expected to make a great speech. Dr. Ameghino will deliver a lecture on the Terciary Period in this part of the world.

Great crowds have thronged the churches during the Holy Week ceremonies.

It is announced from Bolivar that Felipe Ricardo, the murderer of the "Mayordomo of the Sauce Melu estancia, has surrendered to the police, he killed his victim because the latter refused him a certificate for a horse which he had purchased from the estancia.

THEATRES AND AMUSEMENTS.

"La Boheme" continues to attract very large audiences at the Odeon, and will be given again to-night. Meanwhile the company are rehearsing "Clara" by G. Panizza, of the Buenos Aires Conservatory, an opera quite new to B. Bires, but which has already been given with great success in Milan. In addition to this new work, they will shortly produce "Manon" by Massenet, an opera which has already met with great success here.

On Tuesday night a gala performance will be given in the Politeama, the proceeds to go to the aid of the wounded in the Uruguayan revolution. The piece to be represented is not yet decided upon.

On Thursday at this theatre Novelli will appear in the drama in six acts by De Cauville, entitled "I Due Derelitte." This piece has had a most unheard of success in Paris, having been performed for 400 nights in succession. It is a very powerful drama, and the principal part is is one that suits Novelli in every way, and in which he has created quite a furore in Italy.

Frank Brown cannot allow a feast-day or Sunday to pass without regaling his young friends. At the afternoon performance to-day their will be chocolate in profusion for all of them. The performance last night was notable for two new duets by the little wonders Vargas and Bisaccia, both of which called for repeated applause. The Hagels family, Misses Adela and Lucia, in their double trapeze act, the Viennese orchestra and the chorus were splendid and the performance all through was excellent as usual.

EDITOR'S TABLE.

A Merry Easter Week we wish you, readers. Lent is over, and we're jolly glad, as we hate "toujours poisson", tea without milk, dry bread, and all the masticatory privations of the solemn season; the extra prayers we rather like, as we fear that some of our very best readers and subscribers are badly in need of them. However, it's all over till next year. During the holidays, (which should properly be holydays, there were edifying crowds in all the churches, the ceremonies in the principal ones being unusually magnificent; and, we are happy to add, the conduct of the "jovenes" at the doors of the sacred edifices was more "decoroso" than usual.

The Argentine gunboat Parana arrived early yesterday morning at the Darsena from Concepcion del Uruguay with the remains of Colonel Blanco, who died the day before yesterday. The funeral took place yesterday at 4 p.m., and there was a great gathering of military men to mourn the demise of a comrade who was much esteemed in both services. The Parana is under orders to leave to-morrow for the Uruguay. The long expected has come at last. War has practically been declared by the Sultan against little Greece, since the Greek Minister is to be handed his passports.

Our colleague *Diario del Comercio* has certainly scored in its Sala de Informaciones. Between two thousand and three thousand people visit the Hall every day and devour the news—rather sensational at this moment—on the blackboards. At night the crowd is very great, attracted by the splendid illumination. The acetylene Gas gives a marvellous light and we hear that Messrs de Boismenu and Co are selling like hot cakes the simple apparatus for the making of the gas.

The farewell kissing of the numerous passengers by the R. M. S. Nile yesterday was tremendous. They had a most charming day for a start, and all were in the highest spirits at the prospect of making the quickest run to Europe on record—15 days, as promised by the Company. The crowd of friends that went to see the passengers off was the largest on record in this country, and they filled *three* express trains!

The latest telegrams from enfeebled Europe lead us to the tearful conviction that it is "all up" with the peace of that worn-out Continent. The Stock Exchanges have at last taken fright, and there was yesterday something unpleasantly like panic even in cool-headed Capel Court, while the Continental Bourses were all in a cold sweat of apprehension. The Powers are still quite unable to agree as to how to deal with the Cretan question. All the Admirals are sick of the mock blockade of Crete and have advised their Governments to throw it up. The regular troops of Greece and Turkey are said to have had a first encounter on the Macedonian frontier. The Balkan States are in a fever of excitement in favour of Greece. England, France and Italy are hurrying more war vessels to the East. The fact is plain that the so-called concert of the Powers is falling to pieces, and the general fight is within measurable distance.

The rumour last night in official circles was that the Minister of War will not resign, as President Uriburu intends to stick to him and support him as he did Dr. Romero. Our prophetic soul tells us that the "denouement" will be the same in both cases. There is no other way out of the wood.

We have to thank Messrs Galli Bros. for late English papers of all kinds up to 27th ult.

The Banda Oriental Revolution took a tremendous spurt during the holidays, and thrilled the whole country. The capture of the Government gunboat Artigas was a daring but utterly useless act. The little band that did it should have fired her Magazine and blown her up on the spot, thereby inflicting a serious loss on the Urugaayan Government. As it is this Government, as she is anchored at Zarate, must return her to Borda's Government.

The social event of to-day is the grand "fete champetre" banquet and ball given at her palatial estancia at Lobos by Señora Tiburcia de del Carril, to celebrate her 82nd birthday, of which date we wish the venerable matron still several happy returns. An express train for her guests leaves the Constitucion Station at 1 p.m., returning with them to town to-morrow morning at 5 a.m. The fete is organized on a lavish scale, commensurate with the great wealth of the kindly and hospitable hostess, and will be a gathering to be talked of in Porteño society for a long time to come.

The *M. V. T.* says that the Matriz clock there has gone on strike. What is a clock made for, if not to go and to strike all the year round?

It is not the cattle alone in Santa Fe that are suffering from "tristeza". The state school teachers of the Granary of the Republic are all bad with it. How could the unfortunate pedagogues be anything else except "triste" when they have n't been paid for months and months, and have been living on hope, air and music—a perpetual Lenten diet than can be recommended as a remedy for obesity, but for nothing else that we know of.

There seems to be no limit to the enterprise of modern Insurance Companies; and the next thing they will attempt will be to insure the eternal salvation of their policy holders. The Diamond Jubilee at home has given them a chance which they have seized with the lubricated-lightning alacrity of modern business men. Certain offices are insuring intending sightseers against disappointment in the event of any accident involving a change of route or abandonment of the great procession to St. Paul's. By paying a fee they will be able to recover from the insurers the money they paid for their seats, in the event of no proccession taking place. Messrs. Lumley hired a certain house for the day of the procession for a client of theirs—the price paid was 2,000*l.*!

There is a flutter in the highest of high Porteño lite. And why? Ferrari's company for the Opera House sailed from Genoa the Superb on Thursday last in the steamer Sirio, and, as she is an "ocean greyhound," they will be here before the first week in May has run its course.

General Canto got the best of the duel fought on Holy Thursday (What a day for a duel between two Christian officers!) with Colonel Boonen. The principals seconds, and friends travelled all the way to the Cumbre of the Andes, stepped across the boundary line into Argentine territory, and there let fly at each other with the usual preliminary formalities. Both men missed their first shot, but Boonen was hit in the head at the second, and the tray was over.

We closed our long and stomach-aching six week's Lenten fast yesterday with a square meal of Argentine Haddock, sent to us by Mr. Stone of 1062 Calle Cerrito, who makes a specialty of preparing this delicious fish. It was the most enjoyable repast we had had during the whole of Lent. To-day, ours orely-tried stomach renews its acquaintance with beefsteaks and onions and mutton chops and tomato sauce.

"Notre cher ami Mossoo", who has at last frankly given up all idea of rivalling John Bull on the deep and dark blue Ocean", either in peace or war, has made a botch of the two cruisers he has just built for our neighbours on the wrong side of the Andes. The *Chilian Times* to hand by yesterday's mails says:—"For the purpose of discovering the defects of the French-built cruisers *Errázuriz* and *Pinto* a court of inquiry was held on board the *Prat* on Thursday, by order of the Government. The members of the court were Captain Santa Cruz, chief of the marine department; Captain Fernandez Vial, Captain of the Port; Captain Simpson, commander of the *Prat*; Captain Valenzuela, commander of the *Cochrane*; and several other officers. The report of this commission will be awaited with much interest".

We have to thank Mr. Charles Mackern for late illustrated, weekly, and daily, English papers to March 27th—*Times*, *Black and White*, *St. James's Budget* etc. The illustrated papers are full of military and naval sketches in connection with the Eastern Question. *Black and White* has some very good Locust Sketches in Santa Fé, taken from photos sent to it by Mr. H. Falkland Ricketts of that distressed province.

As systematic poisoning is now, unfortunately, in practice here, the following, as regards the dreadful crime in Hungary, is interesting:—The Vienna correspondent of the *Daily News* says that the trial of seven women and one man on a charge of having poisoned more than a dozen persons at Hotanezoe Vazarhely, in order to obtain possession of sums for which they had been insured, has now lasted ten days. The evidence tends to show that there are more guilty persons than was at first supposed. Fresh arrests have been made, and more dead bodies have been disinterred, including eleven yesterday. The village was a nest of conspirators, the doctor and the midwife lending their aid to the vampires who actually administered the poison. The insurance societies, it seems, are in such close competition that they keep secret their lists of members, and it was possible for these men and women to insure their relations in as many as seventeen societies at once. In some cases it was an aged mother who was insured by a son and daughter, or an ailing sister, a crippled brother. Sometimes it was a poor person who had nobody to care for him or her and was thankful to be received into a house on any terms. All these were insured for moderate sums. One man who lived in extreme poverty got £120 when his mother died, having insured her in five societies. The midwife Jager, it is stated, always supplied the arsenic which was ready at hand when the insured person ailed, and could be given with medicine without arousing suspicion. When death took place, the doctor examined the body and declared everything in order, and the midwife was handsomely paid when the insurance money had been received. In some cases persons previously insured were asked to dinner and were given poisoned food. The midwife denies her guilt, saying she gave the women poison to put in soap which they made."

Our distinguished confreres the Circulo de la Prensa will hold another meeting on Tuesday next to consider how the Fourth Estate can best help in giving extra eclat to the Fiestas Patrias on the glorious 25th of May.

The variations in temperature throughout the Queen Province on Good Friday were rather severe, and it was summer toggery at noon and topcoat at night, especially at Tandil and Tres Arroyos, where the meteorological slump was from 26° to 3° and 29° to 8° Cent. respectively.

There is a fashionable rumour that one of our most prominent cricketers will join the ranks of the Benedicts, if not this year, very early in 1898. Congratulations.

The British Institute of Naval Architects has invited the different foreign Societies of like character to attend an International Congress to be held under the Presidency of H.R.H. the Prince of Wales, to celebrate the 60th year of the reign of the Queen. The American Society of Naval Architects and Marine Engineers was the first to accept the invitation.

The *Revue Illustrée* of the 15th inst has some capital views of the encampment at Dennehy, which fond papas and mammas will like to see and keep as a "souvenir" of their boys' first mimic campaign. Portraits of Mr. Williams, the talented Director of the Conservatorio de Musica, and of his Professors and prize pupils occupy several pages of the paper.

Some vessels of the 1st and 2nd Naval Divisions are under orders for a cruise next month. The Buenos Aires, Nueve de Julio, Libertad, 25 de Mayo and Patria, with the Garibaldi as flagship, will sail early next month for the coast of Brazil. It is not yet decided whether the Chief of the Naval Staff, Colonel Garcia, shall take command of the squadron or not.

Many of our readere will be interested in knowing that Mr. Christie has rented the quinta known as Waterloo House, situated in Calle Defensa opposite Lezama Park, just where the Darsena and Barracas Trams turn into Almirante Brown from Defensa and Bolivar. Here Mr. Christie intends to open an English School immediately on the conclusion of his term with the Scotch School, and a better situation from many points of view could not well be found. Mr. Christie, who has now had nearly twelve years' experience of scholastic work in this city, is engaging a Spanish master who will attend all day instead of for a few hours, so that the language of the country in which his pupils are to reside and earn their living may receive the attention due to its importance. The School will be known as St. Andrew's Academy, and prospectuses will be obtainable in a few days.

The information offices of the Central Cordoba and Cordoba and Rosario Railways have been removed to Calle Reconquista No. 36.

He objected to the Irish Stew.—"Any complaints?" asked the orderly officer of some men who were about to begin their dinner in a certain barrack-room. "Yes, sir," instantly exclaimed a raw recruit; "the beef an' bacon in this 'ere Irish 'ash ain't fit for the likes of us to eat, an' I wish to report it." The doctor was sent for to inspect the food. "So you think this meat isn't fit for a man in your position to eat?" said he. "Allow me to tell you that greater men than ever you will be have eaten it. Even Lord Wolseley, our present Commander-in-Chief, wan't above eating it in the Crimea and I made many a hearty meal of it." "Oh, did'e?" said our over-nice recruit. "Yes, he did, replied the surgeon. "Oh, well," retorted the man, "it was all very well for Wolseley, 'cause the meat would be a fresh an' good then. You see, sir, it's a long time since that 'ere Crimea job, and it can't be expected to keep good all these years." The doctor glared at the complainer for a moment, and then hurriedly left with the shadow of a smile playing about the corners of his mouth.

The United States' mock or real effort to put life into that Dead Ass, Bimetallism, is already knocked on the head by England, Russia, Germany and Austria-Hungary, who will have nothing to do with it. Just as the markets of London and New York predicted the gold—standard countries of Europe are "clean sick" of the craze—in plain American.

We feel great pleasure in welcoming from Chubut our old and esteemed friend Mr. Lewis Jones, one of the founders of the Welsh Colony there, and are delighted to see him looking at least thirty years younger than when we saw him last. He came up in the Villarino. The latest news from the Argentine Taffy-land will be found in another column.

FASHIONS AND ACTUALITIES.

Look what it is to stray from one's ordinary subject. A lady correspondent ascuses me of magnifying the virtues of Seneguina; "Nonsense," says she, "am I to believe that these little "pastilles" which are very agreeable to the taste, I confess, are going to cure a cold? Hi! presto! just as if one was merely to blow on it! I know what colds are; every Winter I have always half a dozen of them, and I assure you I am disposed to pay for cherries in the same season to any one who will take mine away, but!"

Is that so Madam? you may prepare your cherries then, and I offer you your revenge if, after a loyal proof, that is to say, after taking two bottles of the Seneguina syrup and two boxes of the lozenges during two days, you should not then be completely cured. The general depot of the Syrup as well as the lozenges is at the pharmacy "Franco-Anglaise" in Calle Cuyo near the corner of Florida.

I come back to my subject, and I will promise you not to desert it again, but my word may resemble too much that of the gambler, and you know as well as I what that is worth! The great news of this week is to be found at Gadan's. He thinks that if we leave to him the choice how to dress our head, whether in Louis XV or Louis XVI style, it is natural that he should also complete the "coiffure" by the hat, and consequently he has done so. In his salons in Calle Florida, he has started a department for hats, and the exhibition of the latest "Parisienne" creations has just been opened. What will be the result? There is the question. A really elegant lady will not wear a toque or a hat without the stamp of Gadan's house, because it is now the latest fashionable establishment. Oh fashion! what a despot it is! Gadan alone has been able to make it his slave with his "coiffures," his "confections" and with his thousand and one feminine knick-knacks, which are only to be found there and, what is more; only be sought there.

Now we have the hat, when shall we have the dress, Madame Gadan?

I sent you, if I don't make a mistake, last week. to the furrier's advising you to go for these delicate purchases to houses where you may buy with all confidence, as in the shop of Mr. Léone Jonquières, who, when last year I entertained you about him, was in Calle Cangallo, but now he is installed in Calle Cuyo 562, and let me warn you he has no branch-house.

He has just received for this next season a large assortment of the latest novelties in furs, such as collars in new forms, capes which are this year in not so great favour, but we will wear large coats trimmed with fur in front; and as I think cold is not yet quite upon us, I shall wait a little bit more to speak to you, my dear readers, about this article.

Well—If you have plenty of money to spend on your wardrobe I would rather advise you to invest in a delicious spencer of thick silk which will be the "cri" of this Autumn season, and reserve your fur trimmings of last year for the real Winter toilette.

Lombardi, whom I consulted on the tendency of the "mode", tells me that nothing will be so original and elegant as dresses trimmed with a little border of ermine fur, and that he has already invented in the silence of his "cabinet" some beautiful "modeles" which will be the great success of this winter. You will well understand that, apart from the richness of these costumes, they will be very agreeable and comfortable to wear, if the winter prove as severe as the summer has been hot.

Whilst we are waiting for the rigours of winter, let us avail ourselves of these lovely days—neither too hot nor too cold, of which this country possesses the privilege—to go shopping and to admire those exquisite stuffs, neither too heavy nor too light, that the Ciudad de Londres makes a specialty of, and which it is now exhibiting, to the great satisfaccion of our eyes and coquetry.

Now that we have left behind Holy—Week and black stuffs, we shall enjoy an abundant choice of thin silks, woollen and silk materials that Europe sends to this great Emporium; decidedly, the manufacturers have overcome all obstacles—to judge from the designs for Autumn that the Ciudad de Londres has just received and may, indeed, be receiving at this very moment.

Parisine.

"Dear Sir,—I am a poor hand at expressing my feelings, but I should like to thank you. Your lozenges have done wonders in relieving my terrible cough. Since I had the operation of 'Tracheotomy' (the same as the late Emperor of Germany, and unlike him, thank God, I am still alive) performed at St. Bartholomew's Hospital, no one could possibly have had a more violent cough it was so bad at times that it quite exhausted me. The mucus, which was very copious and hard, has been softened, and I have been able to get rid of it without difficulty.—I am, sir, yours truly, J. HILL

The above speaks for itself. From strict inquiry it appears that the benefit from using Keating's Cough Lozenges is under stated. The operation was a specially severe one, and was performed by the specialist, Dr. H. I. Butlin, of St. Bartholomew's Hospital. Since the operation the only means of relief is the use of these Lozenges. So successful are they that one affords immediate benefit although from the nature of the case the throat irritation is intense.

LOMAS A.C. *v.* ROSARIO.

Played at Lomas on Thursday last, resulting, as will be seen from the score, in a most severe defeat for the visitors.

The Lomas Club had taken great pains in preparing a good grass pitch, but, most unfortunately, during the night previous, some cows strayed into the field, and cut it up very considerably. This was the primary cause for the scoring being so low, in addition to which the Rosario team were playing under great disadvantages almost all through the game. Immediately after the conclusion of their first innings, a very heavy storm burst over the ground, rendering it easy for the batsman and making the ball very slippery, in addition to which they were two short in their team; when they went in for their second venture, the light was very bad, and Halstead and H. B. Anderson both bowling very fast, had matters almost their own way.

Winning the toss, Lomas started first, the brothers A. and J. O. Anderson being opposed by Penman and Martin. Runs came steadily from the commencement, J. O. scoring the more rapidly, and the first wicket did not fall until 33 runs were registered. The next two wickets fell rapidly, but with Jacobs in, the score mounted fast, until A. Anderson put his leg in front of a straight one, and retired for a carefully compiled 31, the score board marking 61. H. B. Anderson followed in, but immediately lost Jacobs (5-65-11.) R. L. Halstead came next, and the score mounted rapidly, the new comer, especially, hitting out very hard, and amongst other hits, sending the ball out of the ground for 6. The sixth and seventh wickets fell with the total at 100, and it was only some steady play on the part of D. Gibson that made the score at all respectable, the total being 127.

The commencement of the Rosario innings was most sensational. Halstead and Bridger taking wickets alternately, until 5 were down for 7 runs only. Calder then joined Leunda, and a stand was made, but after making 10 the first named, unfortunately, hit his wicket. Besserer came next and helped to raise the total to 42, and it appeared as if they would have to follow on, but some plucky hitting by MacMorran, (a Lomas man who played for Rosario), raised the total to 68, at which the innings closed.

The storm, which had threatened for some time, now broke and delayed play for nearly half an hour, when Rudd and A. Anderson began the second innings of Lomas, the former being clean bowled by a beauty from Martin after making 2 only. J. O. Anderson joined his brother and the two made a grand stand, putting on 59 runs before J. O. was caught at third man. His score of 34 was most valuable, but he gave two chances before he was caught. The next two wickets fell rapidly, but when Jacobs joined Arthur, another good stand was made, thirty runs being added to the score before the fall of the next wicket. After that, the light became very bad, and the Lomas Captain very wisely closed the innings with the score at 133 for nine wickets down.

Of the Rosario second innings it is unnecessary to speak, the 10 batsmen making 24 runs only—of which MacMorran made exactly half.

PACIFIC RAILWAY.

BUENOS AIRES *v* JUNIN.

This match was played at Palermo yesterday, being the return to that played at Junin during Carnival. On this occasion, however, the Buenos Aires contingent turned the tables on their whilom conquerors, principally owing to the good batting of Robson, who, going in first played an admirable innings of 54 not out, over the bowling of O'Ryan, who took 5 wickets for 21 runs.

Going in first, Buenos Aires fared very badly, Robson being the only man who showed any form, and until he was joined by Marr, it looked as though the Junin performance was to be repeated, When these two came together, matters improved very considerably and the score rose rapidly, until Marr was bowled by a beauty from Moffatt. Lovett assisted to raise the score as did likewise Beardshaw and the total of the innings reached the respectable number of 113.

Nothing daunted, the Junin men began full of confidence, but when two wickets were down for no runs and three for ten runs only, things began to look very bad. Ward helped Forrest a little, but when the latter was run out, and, afterward, C. Rogers was bowled for 18, their hopes vanished and in the end, they were beaten by 48 runs.

A large number of spectators, connected with the Railway, witnessed the match, and a very pleasant day was spent by all present.

ATHLETICS.

B.A. FOOTBALL CLUB.

The annual general meeting of the B.A. Rugby Football Club was held on Wednesday evening at the offices of *Sport and Pastime* (kindly lent for the occasion), Mr. Denny Stokes in the chair, who referred to the successful season the club had had, winning 8 out of 9 matches played. The funds of the club are in a good position, carrying forward a balance of $120. Mr. Ronald Bridgett was re-elected President, and Vice-Presidents Mr. J. Drysdale and Mr. Denny Stokes. A special vote of thanks was proposed to Mr. Stokes, who had always taken such an interest in the club, also to Mr. Gilderdale the Hon. Sec. to whose efforts the club owed its premier position. The following constitute committee for present year:—

President, Mr. R. Bridgett; Vice-Presidents, Messrs. J. Drysdale and Denny Stokes, with J. O. Anderson, Baker F. Jones, M. F. Gilderdale and MacMorran. A most successful meeting was brought to a close by a special vote of thanks to *Sport and Pasime* for use of room, and to Mr. Stokes for presiding.

MR. H. NEGRON'S TEAM *v.* MR. T. F. ALLEN'S.

This match will be played to-day on the ground of the Flores Club. Kick off 3 p.m.

BANFIELD A.C.

A match will be played to-day (Sunday) the 18th at Banfield on the arrival of the 1.45 train from Plaza Constitucion between the Possibles and Probables. All wishing to play in the league are earnestly requested to attend. The teams will be picked on the ground.

MR. BUCHANAN'S TEAM *v.* NEGRON'S TEAM.

This game was played on Thursday last at Belgrano, and after a very severe tussle was won by the former.

During the first half, it appeared as if neither side would score, so evenly matched were the two elevens, but about one minute before half time, Jordan managed to get the ball through, from a scrimmage in front of goal, and so scored for Buchanan's team.

During the second half, Negron's side seemed to be more on their mettle, and the ball was continually round about Buchanan's goal, and it was only owing to the cleverness of Coste in goal that many points were not scored. At length, Buchanan got possession, and dribbling past the halves, passed to Levy, who, in turn, passed to Jordan, who immediately shot and scored beautifully. No further point was added, and thus Buchanan's team won by two to nothing.

For Buchanan's team, Coste, G. Brown, Buchanan, Levey, Jordan and Brett played exceedingly well, whilst for Negron's eleven Boyd, Roy, Macfarlane and H. Rugeroni equally distinguished themselves.

NOTES AND ANTICIPATIONS.

To-day's meeting appears on paper to be one of the best yet drawn up this year. The handicapping looks very good and we can foresee very close finishes. For the Premio Esperanza there are 18 entered, Belgrano, Flecha II, Extra and Distinguido being amongst them, of which the son of Rawson and Baronesa strikes us as having a very good chance. In the 2nd event Amelia should account for the $1.700 dollars while for the Classic it will be a ding-dong fight from start to finish, Ney and Pitanga being the couple most fancied, however such fast ones as Blue-Boat, Mignonette, Tanger, Brick and Zig-Zag, who are probably running, will make the race a very interesting one indeed.

Espoir in long distance has a fair pull in the weights and will probably make it a hot thing for her field. Damara has a big chance for the Limethorpe stakes and Namuncurá will take a lot of beating for the Premio Mignonette. The closing event will probably be as good as the Premio America and will no doubt make a very close finish; our selections are:—

Premio Esperanza	—Distinguido or Belgrano.
" Vendetta	—Amelia or Alarife.
" America	—Stud Paris.
" Stone Cross	—Espoir.
" Limethorpe	—Damara or Eureka.
" Mignonette	—Namuncurá.
" Daza	—Tanger.

The General Meeting of the Lomas Athletic Club will be held to-morrow 19th inst. at 8.15 p.m. in the Italian Hall in Lomas.

In reference to the running for the "Grand National" at home, the papers to hand yesterday say: — "An enormous crowd assembled yesterday to witness the running for the Grand National. There were twenty-eight competitors, and of these Manifesto came in first, Filbert second, and Ford of Fyne third.
